RT @gruntdoc: Slovis: ACLS changes BCLS start w CPR, if alone 30:2 comp/breaths. And those goofy looking toilet plungers seem to help. #sa11

**scanman**

Oct 17, 8:51pm via Osfoora HD

RT @gruntdoc: Slovis: ACLS changes Therapeutic Hypothermia coupled with early PCI, even in absence of ST elev, terrific results. #sa11

**scanman**

Oct 17, 8:51pm via Osfoora HD

RT @gruntdoc: Slovis: ACLS changes Therapeutic Hypothermia increases neuro intact survival at discharge by a factor of nearly 12! #sa11

**acutecareinc**

Oct 17, 8:51pm via Twitter for iPhone

#SA11 Arora. Oops. Not blending. Blinding. Difficult to study without evaluator bias because effects are evident (compared to placebo)

**scanman**

Oct 17, 8:51pm via Osfoora HD

RT @gruntdoc: Slovis: ACLS changes Therapeutic Hypothermia is now an indicated therapy, everybody needs to do this. (it's cheap and works). #sa11

**scanman**

Oct 17, 8:50pm via Osfoora HD

RT @gruntdoc: Slovis: ACLS changes STABLE WCT with a rate over 150, can try Adenosine. NOT for the wide and irregular, theybget the box. #sa11

**scanman**

Oct 17, 8:50pm via Osfoora HD

RT @gruntdoc: Slovis: ACLS changes. "I advocate using new drugs early, before they develop side effects". Heh. #sa11

**scanman**

Oct 17, 8:49pm via Osfoora HD

RT @gruntdoc: Slovis: ACLS changes Atropine cut neuro survival in a systole in half! #sa11

**scanman**

Oct 17, 8:49pm via Osfoora HD

RT @gruntdoc: Slovis: ACLS changes; don't need ETT, supra glottis airway they works is fine. (covered yesterday). Atropine out in PEA #sa11

**scanman**

Oct 17, 8:49pm via Osfoora HD

RT @gruntdoc: Slovis: Benzos vs Droperidol for emergent sedation in ED 10mg Versed vs 10mg Droperidol. Droperidol much more effective and safe #sa11

**acutecareinc**

Oct 17, 8:48pm via Twitter for iPhone

#SA11 Arora. Ketofol. Failure of blending? Patient satisfaction is very high.

**scanman**

Oct 17, 8:48pm via Osfoora HD

RT @gruntdoc: Hendey: tennis elbow and mouse elbow (really): stretching, strengthening, more ergonomic mouse, etc. #sa11

**scanman**

Oct 17, 8:48pm via Osfoora HD

RT @gruntdoc: Hendey: tendinitis is probably a misnomer, more likely micro tears, etc, current term is

tendonopathy. Rx is REST. #sa11

**acutecareinc**

Oct 17, 8:47pm via Twitter for iPhone

#SA11 Arora. Compare and contrast: ketamine and propofol. Each compensates for the other's shortcoming. Use both? Ketofol?

**acutecareinc**

Oct 17, 8:45pm via Twitter for iPhone

#SA11 Arora. Only one study mentions a case where patient had to be intubated after use of Propofol.

**scanman**

Oct 17, 8:45pm via Plume

RT @apousson: I'm apparently 12 years old inside because I'm smirking after the lecturer said W/R/T a penis w paraphimosis 'You can't sit on that!' #SA11

**acutecareinc**

Oct 17, 8:43pm via Twitter for iPhone

#SA11 Arora. Propofol. Apnea common (still no MJ)

**acutecareinc**

Oct 17, 8:42pm via Twitter for iPhone

#SA11 Arora. Propofol. Emulsion has both soy and egg. Those allergic experience hypotension. Hurts, so lidocaine mix helps.

**lisabmd**

Oct 17, 8:41pm via Echofon

Wow! A nl WBC count means nothing when dx ped serious bac inf. Low sensitivity. Not any better than clinical gestalt. #SA11 #ER\_med

**acutecareinc**

Oct 17, 8:41pm via Twitter for iPhone

#SA11 Arora. Propofol. Bring on the MJ comments.

**EMDocBrett**

Congratulations to the #SA11 New Speakers Forum winner Dr. Rose Chasm!

**acutecareinc**

Oct 17, 8:25pm via Twitter for iPhone  
#SA11 Arora. Benzo's and disinhibition. Britney pic.

**MDaware**

Oct 17, 8:24pm via Twitter for iPhone  
@emcrit HFOV also great for stabbed lungs and inhalation burns #SA11

**acutecareinc**

Oct 17, 8:24pm via Twitter for iPhone  
#SA11 Arora. Benzodiazepines. Used often. Versed used more than Ativan and Valium. Patient reported superior experience.

**acutecareinc**

Oct 17, 8:22pm via Twitter for iPhone  
#SA11 Arora. Nitrous Oxide. Used with IV drug users when you can't get an IV.

**MDaware**

Oct 17, 8:22pm via Twitter for iPhone  
@emcrit ...but APRV is hard to set and requires a special vent... so use the oscillator... which is just a subwoofer #SA11

**acutecareinc**

Oct 17, 8:21pm via Twitter for iPhone  
#SA11 Arora. Chloral Hydrate. Anyone use it? Nope.

**MDaware**

Oct 17, 8:20pm via Twitter for iPhone  
@emcrit says shunt needs increased mean airway pressure - airway pressure release ventilation: basically fancy CPAP #SA11

**acutecareinc**

Oct 17, 8:19pm via Twitter for iPhone  
#SA11 Arora. The perfect drug for procedural sedation? There isn't one. There are eight...

**EMIMDoc**

Oct 17, 8:19pm via Twitter for iPhone  
#sa11 Origami alveoli, u have to see it to believe it. Really, do ARDSnet to keep the origami nice and perky.

**M\_Lin**

Oct 17, 8:19pm via HootSuite  
@apousson @docpanama @ nickgenes Thanks for the live-tweeting of my talk! It was fun and really nice to see friendly faces in crowd. #SA11

**acutecareinc**

Oct 17, 8:18pm via Twitter for iPhone  
#SA11 Arora. Some sedation is bundled with the procedure (chest pain, TCP)

**acutecareinc**

Oct 17, 8:16pm via Twitter for iPhone  
#SA11 Arora. Medicare billing codes. Time starts when procedure, ends when doc walks out of the room.

**EMIMDoc**

Oct 17, 8:15pm via Twitter for iPhone  
#sa11 All @emcrit materials including slides, mixing instructions and more - available on emcrit.org/acep

**acutecareinc**

Oct 17, 8:15pm via Twitter for iPhone  
#SA11 Arora. Monitoring important. Misses an opportunity for Jackson/Conrad comment/joke

**acutecareinc**

Oct 17, 8:14pm via Twitter for iPhone  
#SA11 Arora. However, local rules on faster might be more stringent

**acutecareinc**

Oct 17, 8:13pm via Twitter for iPhone  
#SA11 Arora. Fasting recommendations are specific to general anesthesia, involve potential for loss of airway. Emergent: doesn't matter.

**lisabmd**

Oct 17, 8:13pm via Echofon  
Crap. Speaker: 8% of neonates with historical fever only can have serious bacterial infection. SWUs for everyone! #SA11

**MDaware**

Oct 17, 8:12pm via Twitter for iPhone  
@emcrit says that you know how to use a needle and syringe, so you can mix push dose pressors (it's fun, too) #SA11

**EMIMDoc**

Oct 17, 8:12pm via Twitter for iPhone  
#sa11 Don't rely on memory - print out mixing instructions and post in multiple places so you don't make mistakes!

**EMDocBrett**

Oct 17, 8:10pm via Mobile Web  
Sacchetti "if neonate <28 days and mom says she felt a fever, even if measured afebrile - still septic workup" #sa11

**EMIMDoc**

Oct 17, 8:09pm via Twitter for iPhone  
#sa11 @emcrit using home videos. Love it.

**acutecareinc**

Oct 17, 8:09pm via Twitter for iPhone  
#SA11 Arora. Indications include chest tube, lumbar puncture, dressing change, multi-system trauma

**EMIMDoc**

Oct 17, 8:08pm via Twitter for iPhone  
#sa11 huh! Phenylephrine aproced for subQ use, so no prob if IV infiltrates!

**MDaware**

Oct 17, 8:08pm via Twitter for iPhone  
@emcrit says: push dose pressors: use phenyl for pressing and epi for inopressing #SA11

**acutecareinc**

Oct 17, 8:07pm via Twitter for iPhone  
#SA11 Arora. Not moderate sedation either. Procedural sedation is moderate sedation. General sedation involves loss of airway control.

**EMIMDoc**

Oct 17, 8:07pm via Twitter for iPhone  
#sa11 epinephrine, same dose. Same onset same duration.

**MDaware**

Oct 17, 8:07pm via Twitter for iPhone  
@emcrit says push dose pressor is really just a temporary drip, but gone in 5 minutes #SA11

**EMIMDoc**

Oct 17, 8:06pm via Twitter for iPhone  
#sa11 phenylephrine = pure alpha. Onset in 1 min lasts approx 5 min.

**EMIMDoc**

Oct 17, 8:05pm via Twitter for iPhone  
#sa11 Push dose pressors? Post tube hypotension, procedural sedation, while volume loading, transport, no time to mix gtt

**MDaware**

Oct 17, 8:05pm via Twitter for iPhone  
@emcrit says push dose pressors are great for short-term hypotension, like transport to ICU or waiting for a drip to be mixed #SA11

**acutecareinc**

Oct 17, 8:05pm via Twitter for iPhone

#SA11 Arora. Not conscious sedation anymore. Procedural sedation & analgesia.

**MDaware**

Oct 17, 8:03pm via Twitter for iPhone  
@emcrit says: fixing sick patients is good #SA11

**EmergencyDocs**

Oct 17, 8:03pm via web
